PEDRO L. BALDONI

baldoni@email.unc.edu ◇ https://plbaldoni.rbind.io
Department of Biostatistics, University of North Carolina at Chapel Hill
135 Dauer Dr, Chapel Hill, NC 27599

EDUCATION

Ph.D. Candidate, Biostatistics *2014 - present*
Department of Biostatistics
University of North Carolina at Chapel Hill, USA
Advisors: Dr. Naim U. Rashid, Dr. Joseph G. Ibrahim
Dissertation Committee: Dr. Michael I. Love, Dr. Yun Li, Dr. Douglas Phanstiel
Research area: Epigenomics, mixed models, mixture regression, deep learning.
Expected graduation: May 2020

M.S., Statistics *2014*
Department of Statistics
University of Campinas, Brazil
Advisor: Dr. Hildete P. Pinheiro
International exchange program: Aarhus University, Denmark (August/2013 - February/2014)
Link to thesis: http://repositorio.unicamp.br/jspui/handle/REPOSIP/307180

B.S., Statistics *2011*
Department of Statistics
University of Campinas, Brazil

PROFESSIONAL POSITIONS

Graduate Research Assistant *2015 - 2019*
University of North Carolina at Chapel Hill

Collaborative Studies Coordinating Center
Hispanic Community Health Study/Study of Latinos (HCHS/SOL)
Supervisors: Dr. Jianwen Cai, Dr. Daniela Sotres-Alvarez

Center for AIDS Research (CFAR)
Supervisor: Dr. Michael G. Hudgens

Statistician *2012*
CPqD Foundation, Campinas, Brazil

PROFESSIONAL ACTIVITIES

Professional Memberships

· American Statistical Association (ASA), 2018 - present

· Eastern North American Region (ENAR), 2017 - present

Program Development

· Session Chair, Eastern North American Region (ENAR), 2019. Topic: Replicability in Big Data Precision Medicine.

HONORS, AWARDS, SCHOLARSHIPS

· University Cancer Research Fund Award - Lineberger Comprehensive Cancer Center, University of North Carolina at Chapel Hill (2019-2020)

· Max Halperin Award (Excellence in graduate studies) - Department of Biostatistics, University of North Carolina at Chapel Hill (2016)

· Science Without Borders (Full Ph.D. program) - CAPES, Brazil (2014-2018)

· International Exchange Program (Aarhus University, Denmark) - Santander Bank (2013-2014)

· CAPES Scholarship (Full MS program) - University of Campinas, Brazil (2012-2014)

PEER-REVIEWED PUBLICATIONS

Association between smoking intensity and target organ damage over six years' follow-up among U.S. Hispanics/Latinos from diverse backgrounds: The Hispanic Community Health Study/Study of Latinos (HCHS/SOL)

PUBLICLY AVAILABLE SOFTWARE

1. **mixNBHMM**: detection and classification of differential enrichment regions from ChIP-seq experiments under multiple conditions https://github.com/plbaldoni/mixNBHMM
2. **ZIMHMM**: detection of broad enrichment regions from multiple ChIP-seq experimental replicates via a zero inflated mixed effects hidden Markov model https://github.com/plbaldoni/ZIMHMM

PRESENTATIONS

Scientific Meetings (Contributed)

· Efficient Detection and Classification of Epigenomic Changes Under Multiple Conditions, *Eastern North American Region (ENAR)*, March, 2020.

· Efficient Detection and Classification of Epigenomic Changes Under Multiple Conditions, *Joint Statistical Meetings (JSM)*, August, 2020.

· Detection and Classification of Changes in Protein-DNA Binding Activity With Applications in Diffuse ChIP-seq Data, *Joint Statistical Meetings (JSM)*, July, 2019.

· Integrative HMM With Mixture Model for Differential Pattern Detection of Broad Epigenomic Marks, *Eastern North American Region (ENAR)*, March, 2019.

· Improved Detection of Epigenomic Marks With Mixed Effects Hidden Markov Models, *Eastern North American Region (ENAR)*, March, 2018.

· A Statistical Method for the Analysis of Multiple ChIP-seq Datasets, *Joint Statistical Meetings (JSM)*, July, 2017.

· A Statistical Method for the Analysis of Multiple ChIP-seq Datasets, *Eastern North American Region (ENAR)*, March, 2017.

Invited Seminars

· Laboratory for Statistical and Translational Genomics, *University of Pennsylvania*, January, 2020.

Other Meetings and Events

· Computational Medicine Research Meetings, *School of Medicine, University of North Carolina at Chapel Hill*, March, 2020.

· On the use of Regression Calibration in a Complex Survey Design with Application to the Hispanic Community Health Study/Study of Latinos, *Collaborative Studies Coordinating Center, University of North Carolina at Chapel Hill*, November, 2019.

· Statistical Strategies for the Analysis of Diet-Disease Models that Correct for Error-Prone Exposures, *Collaborative Studies Coordinating Center, University of North Carolina at Chapel Hill*, May, 2010.

· Calculating and Comparing Age Standardized Cumulative Incidence of Hypertension across Hispanic/Latino Background Groups, *Collaborative Studies Coordinating Center, University of North Carolina at Chapel Hill*, April, 2019.

· Statistical methods for HIV-1 reservoir estimation in viral outgrowth assays, *Center for AIDS Research (CFAR), UNC Gillings School of Public Health*, June, 2016.

TEACHING EXPERIENCE

Recitation Lecturer
Department of Biostatistics, The University of North Carolina at Chapel Hill
BIOS 545 - Principles of Experimental Analysis (2016, Undergraduate level class)

Teaching Assistant
Department of Biostatistics, The University of North Carolina at Chapel Hill
BIOS 680 - Introductory Survivorship Analysis (2018, MS level class)
BIOS 735 - Introduction to Statistical Computing (2019, 2020, PhD level class)

Department of Statistics, University of Campinas, Brazil
ME607 - Time Series (2013, Undergraduate level class)

SKILLS AND SERVICE

· Computing skills: proficient in R, C++, and SAS.

· Languages: Portuguese (native speaker), English, and Italian.

· Student body representative in the Department of Statistics, University of Campinas, Brazil, 2013
